

DAWN BUCKINGHAM
STATE SENATOR

Statement on Pre-Enrollment in School for Children of Military Members - SB 676

As a strong defender of the military and those who wear our nation's uniform to defend our freedom, continuing Texas' support for military members and their families will always be one of my top priorities. Current state law requires students to provide a proof of residency prior to enrolling in public school classes and programs, which can put students of military families transferring to a new school district at a disadvantage. To address this issue, SB 676 will enable students of military families to pre-enroll in a school district once they have received their military orders.
